

### **REMARKS**

Entry of this Amendment and reconsideration of the present application as amended are respectfully requested.

In response to the election of species requirement, applicant elects Species VI, claim 78, a tube for attaching to bowel with a sewing ring having a notch around the circumference.

This election is made with traverse vis-a-vis Species I and VI. In view of the presence of minor differences between Species I and Species VI, it is respectfully submitted that Species I should be considered together with Species VI. Species VI, claim 78, recites a sewing ring arranged around the circumference of the tubular body whereas Species I, claim 1 (as previously set forth), recited a circumferential sewing ring arranged on the tubular portion of the body.

In view of these minor differences, claim 1 has been amended to depend from claim 78. Claims 5, 10-13, 17, 66 and 68 have also been amended to depend from claim 78 while claim 40 has been amended to depend from claim 13 which depends from claim 78. Therefore, claims 1-8, 10-17, 40-42, 44 and 66-68 now depend directly or indirectly from claim 78.

Applicant thus identifies claims 1-8, 10-17, 40-42, 44, 66-68 and 78 as being readable on the elected species.

This election is made without prejudice to filing divisional applications directed to the subject matter of the non-elected species.

Should any changes to the claims and/or specification be deemed necessary to place the application in condition for allowance, the Examiner is respectfully requested to contact the
